

**REMARKS**

This paper is to amend minor mistakes to the Specification, which were added in the Amendment After Final filed December 9, 2005.

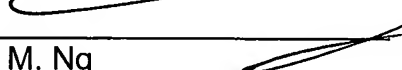

In the Final Office Action mailed September 21, 2005 the Examiner objected to the disclosure to update divisional application information.

Applicant hereby informs the Examiner that the present application is not a divisional of Serial No. 09/275,815 filed March 25, 1999, now U.S. Patent No. 6,642,611 issued November 4, 2003, nor is it the Applicant's invention. Applicant accordingly respectfully submits that this application is in condition for allowance. Early and favorable consideration of the application is respectfully requested.

Applicant believes no fee is due with this amendment. However, if a fee is due, please charge our Deposit Account No. 50-0665, under Order No. 386998035US from which the undersigned is authorized to draw.

Dated: December 12, 2005

Respectfully submitted,
